## STONEWOOD BY YONOH

STONEWOOD is a new collection by YONOH, inspired by two classic textures in ceramic tile design: wood and stone. Taking these two best-sellers and a combination of wood and stone effects, this porcelain tile collection was developed for use on both walls and floors. The monochrome tiles highlight the different textures and shine of each of these two materials so that layouts can be created that unite both finishes on the same monochrome surface. The outcome is a trendsetting new aesthetic concept, suitable for all kinds of settings.

La nueva colección STONEWOOD diseñada por YONOH trabaja dos texturas clásicas en los revestimientos del mundo cerámico como son la madera y la piedra. Utilizando estos dos 'bestsellers' crean STONEWOOD, una colección porcelánica válida para pavimento y revestimiento que combina un acabado efecto madera con otro de aspecto piedra. Piezas monocromática que acentúan texturas y brillos diferentes para cada material. STONEWOOD permite crear composiciones que unen y combinan estos dos acabados en una misma superficie monocolor generando un nuevo concepto estético de tendencia para todo tipo de espacios.

## TEXTILE BY YONOH

Inspired by the weave of fabrics, TEXTILE by YONOH features a subtle elegant mesh-like pattern made up of smaller meshes. The version with a white background features different overlapping layers of colour in randomly combined compositions, while the plain-coloured models come in the same background shade as the white version's overlapping colours, thus creating visual interplay evocative of different superimposed textile weaves.

TEXTILE by YONOH se inspira en la superposición de texturas textiles para crear un entramado sutil y elegante, un dibujo generado por pequeñas cuadrículas que forman otras superficies mayores. La versión de fondo blanco superpone diferentes capas de color para generar composiciones que combinan de forma aleatoria. Las piezas monocolor por su parte toman como base cromática los mismos tonos que los superpuestos a la versión blanca, creando así juegos visuales basados en las superposiciones de diferentes tramas textiles.

## SOLAIRE BY LUCA NICHETTO

Referring to everything related to the sun, the French word “solaire” defines also the quality attributed to those who are capable to illuminate the space around with their own presence. SOLAIRE Tiles embody this quality, aiming to create a constant dialogue between light and ceramics inspired by materials often used in architecture. Different textures and patterns, series of dots in low relief play all together with a range of colours and finishings, interacting with the evolution of light. As a result, shadows and reflections cast vibrations and movements, altering the perception of a surface that contrasts with the natural features of the ground.”

Referida a todo lo relacionado con el Sol, la palabra francesa “solaire” define también la calidad atribuida a aquellos que son capaces de iluminar el espacio con su propia presencia. La colección SOLAIRE encarna esta cualidad, con el objetivo de crear un diálogo constante entre la luz y la cerámica. Diferentes texturas y patrones, prints en bajo relieve que juegan con una amplia gama de colores y acabados, siempre interactuando con la evolución de la luz. Como resultado, las sombras y los reflejos emiten vibraciones y movimientos, alterando la percepción de las superficies que contrastan con las características naturales del terreno.
